The cultural subjects change every month.

Minimum 5 students.

### **Individual tuition**

These lessons, which are held by highly qualified teachers, aim to meet the personal requirements of time and preparation of each single student, in order to obtain the maximum result in a short time. For this reason, even the 'lunch-break' is spent with the teacher and so becomes an occasion to learn another aspect on the Italian way of life which absolutely should not be overlooked.

During its experience, our school has had the opportunity to prepare directors and managers from some of the greatest national and international companies.
